

学部・別科・研究科 INDEX

Introduction of Faculties, Department & Special Programs

学部 (Faculty)	学科 (Department)		
国際文化学部 InterCultural Studies	国際文化学科 InterCultural Studies		<p>グローバルな視点を持ち、地域文化の発展に貢献</p> <p>私たちの日常は、世界と切り離せないものになっています。毎日食べている物や着る物の原産地や製造国を見ると、海外の名が出てきます。国際文化学科では、実践的に語学力を伸ばす科目を受講しながら政治・経済・宗教・国際関係などを学び、目の前の物事にある背景やなりたちなどにも目を向けることで世界とグローバルにつながります。</p> <p>Contribute to the development of community culture with a global perspective</p> <p>Our daily life is now inseparable from the world. Looking at the foods we eat and clothes we wear everyday, we see them originated in foreign countries. At the Faculty of Intercultural Studies, students, while taking courses to develop their practical foreign language skills, learn about politics, economics, religion, and international relations and get connected to the global society by looking at the background and making of things in front of them.</p>
	文化創造学科 Culture and Creative Arts		<p>文化や芸術への知識を深め、表現力を養う</p> <p>歴史や文化の背景について知識を深め、アイデアを効果的に表現し、発信できることを目標としています。2年次から地域の文化を再発見し新しい魅力を創造する「日本文化」、ビジュアル・メディア・プロダクト・ファッションなど多様な領域に出会える「デザイン創造」のどちらかのコースを選択します。</p> <p>Deepen the knowledge about cultures and arts and cultivate the ability to express oneself</p> <p>The aim is to deepen our knowledge about historical and cultural backgrounds and become able to effectively express and send out ideas. In the second year, students choose either the Japanese Culture program, where they rediscover the community's culture and recreate new attractions, or the Creative Design program, where they can encounter various areas such as visual media product fashion.</p>
社会福祉学部 Social Welfare	社会福祉学科 Social Welfare		<p>人を支えるコミュニティーソーシャルワーカーに</p> <p>少子高齢社会の今、福祉課題を広い視野から理解するための専門知識と、深い人間理解と人権尊重に裏付けられた実践技能が求められています。人や地域が抱える問題点を的確に捉え、人間関係を紡ぎながら新たな福祉を見出す論理的思考力を磨き、それを達成するための方法論を学び、「その人らしい暮らし」を実現させる技能を身につけます。</p> <p>Become a social worker who supports people</p> <p>This age of the declining birth rate and advanced ageing calls for specialized knowledge to help understand welfare issues from broad perspectives and practical skills corroborated by a deep understanding of people and respect for human rights. Students cultivate their logical thinking skills which enable them to accurately grasp problems facing people and the community and to discover a new welfare while nurturing human relationships. Students also learn methodologies to attain these skills, thereby equipping themselves with skills to realize "one's unique way of life".</p>
看護栄養学部 Nursing and Human Nutrition	看護学科 Nursing		<p>人の生活と命に向き合う専門家を目指す</p> <p>健康問題や看護を科学的根拠に基づいて理解するためには、身体の仕組みや機能、病気の成り立ちなどに加え、現代社会や生活環境の問題点を知る必要があります。人への気配りをする姿勢を学びながら、看護の専門領域はもとより、医療の場だけではなく地域で暮らす人々の生活と健康を支えるための幅広い教養や視点を身につけます。</p> <p>Aim to become a specialist who faces people's life and living.</p> <p>In order to understand health problems and nursing based on scientific grounds, it is necessary to understand the physical mechanisms and functions as well as pathological mechanisms in addition to problems related to contemporary societies and living environments. While learning about attitudes which show consideration to people, students equip themselves with not only understanding and skills of their specialized nursing field but also a wide range of knowledge and perspectives which support the life and health of people living in the community.</p>
	栄養学科 Human Nutrition		<p>人々の健康を支える「食と栄養」のプロに</p> <p>毎日の食事は人々の健康に深く関わっています。人々の健やかで豊かな生活の実現のために、一人ひとり身体状況や栄養状態に応じた支援ができる管理栄養士を養成。栄養管理の支援、特定給食施設における食事計画・生産管理など多角的な学習を展開しています。また、チーム医療の一員として活躍できるようプレゼンテーション力も身につけます。</p> <p>Become a Food and Nutrition professional who supports people's health</p> <p>Daily diet is deeply related to one's health. We train national registered dietitians who can provide support in response to individuals' physical conditions and nutritional states in order to maximize their healthy and rich life. We expand multidimensional learning such as support for nutritional management, meal planning and production management at designated school lunch facilities. Students also equip themselves with presentation skills so they can contribute as members of medical teams.</p>
別科 (Division)			
別科助産専攻 Division of Midwifery	別科助産専攻 Division of Midwifery		<p>命の誕生に寄り添い、母と子の未来を育む</p> <p>地域の母子保健の発展・向上に貢献できる自律した「命を育むスペシャリスト」を目指します。安全で安心なお産を支援できる基礎力とともに、女性の生涯にわたる健康課題や親と子の今日的な課題に対しても専門的な支援ができる基礎力を身につけます。さらに、チーム医療の場において協働できる能力、地域と連携できる能力を育成します。</p> <p>Accompany birth-giving and cultivate maternal and child's future</p> <p>Students aim to be self-autonomous "specialists who nurturs life" and can contribute to the development and improvement of the community's maternal-child health. They will be equipped with basic skills to support safe and sound birth-giving as well as fundamental abilities to provide specialized support towards women's lifetime health issues and parent-child contemporary issues. Moreover, they cultivate abilities to cooperate in the field of team medicine and collaborate with the community.</p>
大学院 (Graduate School)			
国際文化学研究科 Graduate School of Intercultural Studies	国際文化学専攻 Master's Program in Intercultural Studies		<p>他者との共生を図りながら新しい文化を創る</p> <p>教育研究を通してグローバルな感覚を磨きながら、社会の国際化に対応できる高度な多文化理解力や交流能力を身につけます。さらに、他者を尊重し、生活者の視点で物事を捉えられる学びが展開。多様な文化や価値観の共生、地域のまちづくり、しあわせづくり等の研究を行います。</p> <p>Create a new culture while coordinating co-existence with others</p> <p>Students will acquire a high-level understanding of various cultures and exchange skills, adapting themselves to globalizing societies. They will be engaged with learning which enables them to respect others and look at things from citizens' perspectives. They will moreover conduct research such as co-existence with various cultures and values, community building, and happiness-creation.</p>
健康福祉学研究科 Graduate School of Health and Welfare	健康福祉学専攻 Master's and Doctoral Program in Human Health Science and Welfare		<p>多角的な視点から健康福祉を分析する</p> <p>地域社会で生活する人々が、生涯を通じて身体的・精神的・社会的に健康な生活を維持するためには何が必要かを、学際的に立って考えることのできる能力が必要です。社会福祉・看護・栄養の各領域を総合した健康福祉学の視点に立って、地域の人々の健康福祉に関わる課題解決に取り組めるスペシャリストを目指します。</p> <p>Analyze health welfare with multi-perspectives</p> <p>It is necessary to have abilities to think, from interdisciplinary perspectives, about what is needed for people living in the community to maintain a physically, psychologically and socially healthy life throughout their lives. Students aim to become specialists who can tackle problem-solving which concerns community residents' health-welfare from perspectives of health welfare studies which integrate the areas of social welfare, nursing, and nutrition.</p>
